

## **Wiring Instructions for ECU Educational Foundation, Inc. (Pirate Club)**

Contact your broker and provide them with the information in Part A. Complete Part B and fax it back to the Pirate Club. This helps our staff know when the stock will be transferred into our account. It also lets us know who is making the stock gift, so we can record it properly. The donor's name does not appear on our account, so we do not know who has sent stock unless the donor lets us know.

You will receive an acknowledgement of the gift for tax purposes based upon the average of the high and low price on the day that it was gifted. You will receive a membership credit for the net proceeds realized from the sale of the security. Once the security reaches our account, it is sold immediately.
